- Public Relations
- Teamwork
- Time Management
- Leadership
- Effective Communication
- Critical Thinking

### PROFILE

I'm Hamza, a skilled Full Stack Developer with hands-on experience in both frontend and backend development. I specialize in building dynamic, fully responsive web applications using modern frontend libraries such as Next.js and React.js, complemented by styling frameworks like Bootstrap, MUI and Tailwind CSS. On the backend, I work extensively with Node.js and MongoDB, using Mongoose for efficient and scalable database management. Proficient in the MERN Stack, I specialize in building high-performance, scalable applications with clean, maintainable code, delivering client-focused solutions that combine modern design, seamless usability, and optimal performance.

### WORK EXPERIENCE

#### AR Swift Pvt. Ltd. — MERN Stack Developer

SEP-PRESENT

- Developed and maintained responsive web and mobile app using React.js, Next.js, Node.js ,Express.js, and MongoDB.
- Led and mentored junior developers, resolving Git issues and managing code deployments.
- Oversaw task planning and execution, contributing to timely project delivery.
- Although I joined as a junior developer, I independently handled development and guided junior team members.
- Handled task tracking and team collaboration using Trello, Slack, Discord, and GitHub to manage workflows and ensure smooth development progress.
